Biog

Facility trained editor with over 20 years experience working in London, Dublin, Australia and Qatar cutting every genre using Avid, Premiere and FCP. I have great understanding of workflow, can work alone but prefer to play with a team. Good with budgets and deadlines. I've cut live shows and fast turnaround.

My eyes have seen things you wouldn't believe but due to broadcast restrictions, all those moments will be lost in time, like tears in rain.
